EDUCATION

King Faisal University

2019 - 2024

Bachelor's degree, Biomedical
Engineering with **4.43/5 (Second
Class Honor)**

PERSONAL SKILLS

- Adoption and Reliance
- Critical thinking
- Communication
- Negotiation
- Problem-solving
- Organization and time management
- Presentation
- Agility

TECHNICAL SKILLS IN (PPM & CM)

- Dental Equipment: Mixers
- (EMS) Equipment: ECG Machines, Patient Monitors, BiPAP V60 and Defibrillators
- Test Equipment: Electrical Safety Analyzers, Gas Flow Analyzers, Vital Signs Simulators and Defibrillator Analyzers

SOFTWARE SKILLS

- MS Software
- Autodesk
- AutoCAD
- Scripting with C and C#
- NI ELVES
- Multisim
- MATLAB

LATEST COURSES

- **(PMP)®**- PMI | (18 Sep 2024)
- 30-Hour-General Industry Safety **OSHA** | (11 Aug 2024)
- Operational Training on Fluke **Biomedical Test Equipment**- Aljeel Medical | (Aug 2023)
- Onsite Application Training on **Cios Alpha** (Mobile C-arm x-ray)- Siemens | (Aug 2023)
- **Fire Awareness** & Fire Extinguisher- Johns Hopkins Aramco Healthcare (JHAH) | (Jul 2023)

Biomedical Engineer

PROFILE

As a freshly graduated biomedical engineer, I bring valuable experience in medical equipment maintenance, project management, sales, and customer relations. My internship at Johns Hopkins Aramco Healthcare has equipped me with multiple hands-on hospital safety procedures and settings. I've also Co-founded three pre-startup ventures: a biomedical engineering virtual reality training platform, a healthcare vendor management system, and a portable locker system.

WORK EXPERIENCE

CORPORATE COMMUNICATIN MANAGER

Tuwaitq Human Resources Association

DEC 2024 - Present

- Led corporate meetings and negotiations, strengthening strategic
- Streamlined communication across departments.
- Designed and implemented a governance strategy to optimize decision-making and organizational efficiency.
- Directed content strategy for social media, enhancing brand visibility and engagement.

BIOMEDICAL ENGINEER TRAINEE

Johns Hopkins Aramco Healthcare (JHAH)

Jul 2023 - Aug 2023

- Developed understanding of biomedical engineer's hospital role.
- Collaborated across various hospital departments, including Radiology, Pharmacy, Emergency, Hemodialysis Services, and Intensive Care Unit.
- Participated in PPM and CM
- Delivered public presentations on technical concepts.
- Founded a platform for medical equipment vendor management and streamlined contracts.

PERSONAL SHOPPER

Owned Business

Jul 2021 - Dec 2021

- Assisted organizations and businesses in boosting brand awareness.
- Managed to fulfill more than 40 orders per day
- Addressed customer inquiries, orders, complaints, and refunds.
- Oversaw multiple social media platforms to attract and engage a larger customer base.

PROJECTS

- Graduation Project - Biotech Simulator (Sep 2023 - Present): Led the development of an innovative VR training platform for biomedical engineering, which has enhanced practical skills and reduced training time on devices like the IntelliVue Patient Monitor MX800. **(Its current market value is estimated to be +40k SAR)**[Click for Biotech Simulator Video](#) 
- Johns Hopkins Aramco Healthcare Project - Delay Deduction System DDS (Aug 2023 - Present): Co-founded a platform to improve vendor management for medical equipment and increased operational efficiency by simplifying paperwork, enhancing invoice processing, and mitigating delays. **(Misk Launchpad Alumni & The winner of 3rd place in the pioneering competition)** [Click here for DDS](#)
